

# No Compromises. No Cost.

Introducing **CA Nimsoft Monitor Snap** – The powerful, easy-to-use IT monitoring platform you've always wanted but couldn't afford—until now.

### Download the solution to:

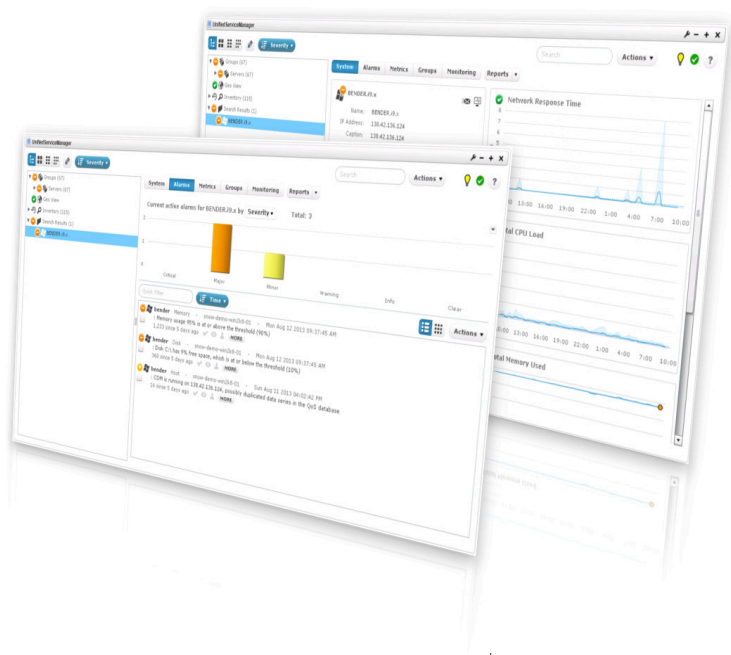

**Stop compromising.** CA Nimsoft Monitor Snap gives you robust, enterprise-class functionality in a single, unified solution that enables you to monitor up to 30 servers, databases, applications, storage systems and network devices for free.

**Stop managing your “management” tools.** CA Nimsoft Monitor Snap consolidates multiple IT monitoring capabilities into a single platform that's simple to use and easy to manage.

### And you will:

- **Optimize operational efficiency** by eliminating the hassle and expense of integrating and managing multiple, disparate point monitoring tools;
- **Find and fix problems faster** with intuitive dashboards, reports, alarms and guided workflows to help you quickly pinpoint and resolve issues;
- **Achieve rapid time-to-value** and see results fast.

**Monitor up to 30 servers, databases, applications, storage systems and network devices with a single, unified solution to optimize your most critical devices.**

**Stop settling for less.
